**A Slimmer You Cookbook**-Regine du Plessis 2020-01-01 Many people want to lose weight, and we’re all looking for the easiest way to do so. When it comes to weight-loss programmes, one of the excuses frequently heard by dieticians is ‘I don’t know how to prepare the right meals’. This book provides a solution to that. In A Slimmer You Cookbook, the author presents over 75 home-style recipes, all yielding just 1000 kJ per portion, to suit a variety of individual preferences, family circumstances and budgets. The recipes demonstrate that, by monitoring your portions, you can cook for a family, eat healthily, and enjoy a variety of foods, all while achieving your goal of losing weight. But eating correctly is not just about following a recipe or meal plan; we need to understand how what we eat affects our health. The introduction includes topics such as BMI and cholesterol levels, how to balance daily food intake with activity levels, the role of carbohydrates, proteins and fats in our diet, making the most of ‘free’ vegetables, and tips on how to interpret food labels.

**Handbook of African Medicinal Plants, Second Edition**-Maurice M. Iwu 2014-02-04 With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedical uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

This handy volume offers answers and explanations about features along all the major routes across South Africa, and some of the lesser, but geologically interesting, routes too. Also included are the three main metropolitan areas - Johannesburg, Cape Town and Durban - so that city r.

<b>God se oneindige verrassings (eBoek)</b> - 2015-08-01 God se oneindige verrassings - afgelei van die immergewilde Daily Guideposts Devotional wat lesers al vir baie jare inspireer - is ’n betroubare metgesel wat lesers help om te groei en hul geloof uit te leef in hul daaglike lewens. God se oneindige verrassings bied vir elke dag ’n kort Skrifgedeelte om oor te besin, versel deur ’n dagstukkie, wat bestaan uit ’n ware verhaal, geskryf in die eerste persoon in ’n informele gesprekstyl. Dit handel oor die maniere waarop God met ons praat deur die alledaagse gebeure van die lewe, en dan volg ’n kort gebed om die leser se eie gebede te help fokus en om die dag se boodskap toe te pas. Vir diegene wat meer Skrifuurlike diepte in hul stiltyd soek, bied die ‘delf dieper’ stukkie bykomende Bybelverse wat verband hou met die dag se stukkie. In net vyf minute per dag sal God se oneindige verrassings lesers help om elke dag van die jaar geestelike diepte in hul lewens te kry. Die tema van ‘oorvloedige vreugde’ bevestig op elke bladsy God se aanbod van sy liefde en leiding vir elke dag. Stel jou voor: ’n jaar gevul met liefde en goedheid - van die oggend tot die aand. ’n Hele 365 dae wat voor jou uitstrek, elkeen nuut en vars, sinryk en volmaak. Jou 52 reisgenote in God se oneindige verrassings gaan jou help om elke oggend die dag vol geleenthede te verwelkom en aan te gryp. Hierdie 52 bydraers gaan hul oorrinnings en worstelinge met jou deel, en hand aan hand saam met jou deur die jaar stap. Al die bydraes weerspieël vanjaar se tema: ‘Oorvloedige vreugde’. ‘Mag God, die bron van hoop, julle deur julle geloof met alle vreugde en vrede vervul, sodat julle hoop al hoe sterker kan word deur die krag van die Heilige Gees!’ (Rom 15:13). Hierdie Skrifgedeelte belowe dat God se oneindige liefde jou onderhou. Al voel jy afgereim, uitgeput of oorweldig deur probleme, wil jou geestelike reisgenote in God se oneindige verrassings jou nader aan God bring sodat Hy jou hart met vreugde en vrede kan vul omdat jy op Hom vertrou. Begroet elke dag met dankbaarheid en lof, want jou seëninge is hier! God se beloftes hou altyd stand, sy liefde verander nooit nie en sy voorraad raak nooit uitgeput nie.

**Beneath the Surface**-Lynn M. Thomas 2020-01-20 For more than a century, skin lighteners have been a ubiquitous feature of global popular culture—embraced by consumers even as they were fiercely opposed by medical professionals, consumer health advocates, and antiracist thinkers and activists. In Beneath the Surface, Lynn M. Thomas constructs a transnational history of skin lighteners in South Africa and beyond. Analyzing a wide range of archival, popular culture, and oral history sources, Thomas traces the changing meanings of skin color from precolonial times to the postcolonial present. From indigenous skin-brightening practices and the rapid spread of lighteners in South African consumer culture during the 1940s and 1950s to the growth of a billion-dollar global lightener industry, Thomas shows how the use of skin lighteners and experiences of skin color have been shaped by slavery, colonialism, and segregation as well as by consumer capitalism, visual media, notions of beauty, and protest politics. In teasing out lighteners’ layered history, Thomas theorizes skin as a site for antiracist struggle and lighteners as a technology of visibility that both challenges and entrenches racial and gender hierarchies.

**How I Beat Stage 4 Cancer, Maggie Mcgee Protocol**-Maggie Mcgee 2017-06-09 Maggie shares her strategies on exactly how she beat stage 4 cancer- naturally right from her own kitchen! Through extensive research, Maggie discovered additional folk remedies from around the world that harness the power of the planet’s most nutrient dense foods. Maggie brilliantly combined all these resources with elements of other proven protocols into one easy to understand step by step protocol. WHILE many books will focus on the emotional aspects of fighting cancer, Maggie’s book gives the reader her formula on precisely how she beat stage four cancer. When diagnosed with stage 4 cancer, Maggie searched for the ultimate book on how to beat cancer, but there was none to be found. Being the determined fighter that she is, she prayed to God for wisdom in her battle with cancer. Ultimately, this is the book that came from that prayer.Now includes index.

**Dangerous Drugs**-Ronny Spaans 2020-06-25 In the 17th century, the Dutch Republic was the centre of the world trade in exotic drugs and spices. They were sought after both as medicines, and as luxury objects for the bourgeois class, giving rise to a medical and moral anxiety in the Republic. This ambivalent view on exotic drugs is the theme of the poetry of Joannes Six van Chandelier (1620-1695). Six, who himself ran the drug shop ‘The Gilded Unicorn’ in Amsterdam, addresses a number of exotic medicines in his poems, such as musk, incense, the miracle drug theriac, Egyptian mummy, and even the blood of Charles I of England. In Dangerous Drugs, these texts are studied for the first time. The study shows how Six, through a process of self-presentation as a sober and restrained merchant, but also as a penitent sinner, thirsting for God’s grace, links early modern drug abuse to different desires, such as lust, avarice, pride and curiosity. The book shows also how an early modern debate on exotic drugs contributed to an important shift in early modern natural science, from a drug lore based on mythical and fabulous concepts, to a botany based on observation and systematic examination.
